

G70D 2.9.1	<p>"The registered facility shall be constructed and operated in accordance with the information filed in the General Permit Registration Application, alternative operating scenario notifications per section 1.1.3 of this general permit, and amendments thereto or facility changes that do not meet the definition of modification as defined in 45CSR13."</p>	G70A 2.9.1
G70D 8.1.2.3(vi)	<p>"The registrant shall operate and maintain the enclosed combustion device according to the manufacturer's specifications for operating and maintenance requirements to maintain the guaranteed control efficiency listed in the General Permit Registration."</p>	G70A 14.1.2.3(vi)
G70D 8.4.4	<p>"To demonstrate compliance with section 8.1.2.3.vi of this general permit, the registrant shall maintain records of the manufacturer's specifications for operating and maintenance requirements to maintain the control efficiency."</p>	G70A 14.4.4
670D 8.1.1	<p>"The registrant shall, to the extent practicable, install, maintain, and operate all air pollution control equipment and emission reduction devices listed in the General Permit Registration and associated monitoring equipment in a manner consistent with safety and good air pollution control practices for minimizing emissions, or comply with any more stringent limits set forth in this permit or as set forth by any State rule, Federal regulation, or alternative control plan approved by the Secretary. [45CSR§13-5.11.]"</p> <p>Paraphrased: states that depending on the emissions determination either Section 7.0 or Section 8.0 applies to the control devices. The registrant can choose which section applies to the control devices if they are not OOOO/OOOOa applicable; however, if they are OOOO/OOOOa applicable then Section 7.0. Applicability for OOOO/OOOOa is determine by the emissions determination (see G70-D § 6.1.1), if a single storage vessel is greater than 6 tpy VOC then OOOO/OOOOa applies to the storage vessel (40 CFR § 60.5365(e)). Note: The determination may take into account requirements under a legally and practically enforceable limit in an operating permit or other requirement established under a Federal, State, local or tribal authority</p>	G70 14.1.1
G70D 6.1.2		

The registered facility shall be constructed and operated in accordance with the information filed in the General Permit Registration Application and any amendments thereto. The Secretary may suspend or revoke a General Permit Registration if the plans and specifications upon which the approval was based are not adhered to."

"The registrant shall operate and maintain the enclosed combustion device according to the manufacturer's specifications for operating and maintenance requirements to maintain the guaranteed control efficiency listed in the General Permit Registration."

"To demonstrate compliance with section 8.1.2.3.vi of this general permit, the registrant shall maintain records of the manufacturer's specifications for operating and maintenance requirements to maintain the control efficiency."

"The registrant shall, to the extent practicable, install, maintain, and operate all air pollution control equipment and emission reduction devices listed in the General Permit Registration and associated monitoring equipment in a manner consistent with safety and good air pollution control practices for minimizing emissions, or comply with any more stringent limits set forth in this permit or as set forth by any State rule, Federal regulation, or alternative control plan approved by the Secretary. [45CSR§13-5.11.]"
